

USB 4 USB-C to C Gen 2x2 20Gbps 240W Braided Cable with Aluminum housings, Black/Gray, 6 Ft

P/N: USB4-20G240W-06

High-Speed 20Gbps Data Transfer: Unleash the power of USB 4 Gen 2x2 technology for lightning-fast data transfers at up to 20Gbps. Seamlessly handle large file transfers, stream high-definition content, and tackle data-intensive tasks with unparalleled speed and efficiency.

Robust 240W Power Delivery: Experience formidable charging capabilities with the ability to deliver an impressive 240 watts of power. Whether you're rapidly charging laptops, gaming consoles, or power-hungry devices, this cable ensures swift charging and minimal downtime to keep you connected.

Versatile Display Options: Support single 5K@60Hz or dual 4K@60Hz resolutions, along with compatibility for full HD 1080P video. Connect to external HDTV displays, monitors, or projectors for versatile and high-quality visual experiences.

Durable and Flexible Design: Constructed for long-lasting durability, the cable features a braided design that offers flexibility, reduced tangling, and enhanced durability. Electromagnetic interference (EMI) shielding ensures a stable connection, maintaining consistent data transfer and charging performance.

Thunderbolt 3 and Future-Proof Compatibility: This USB4 Gen 2x2 cable seamlessly connects Thunderbolt 3 and USB-C devices. Designed with future compatibility in mind, it ensures your devices stay current with the latest data transfer and power delivery standards, making it a long-term investment.

Compatible With:

- All USB-C devices and backward compatible with USB 3.2, 3.1, and 2.0 devices
- All iPhone 15 models and beyond
- MacBook Pro/Air, iPad Pro/Air, iMac All
- Samsung Galaxy S and A-series, Note, Z Fold, Z Flip
- Google Pixel, Chromebook, Microsoft Surface
- Motorola Moto, LG phones, OnePlus phones, and more
- Docking stations, hard drives, and other USB-C peripheral devices
