

INDUSTRIAL STRENGTH NITRILE GLOVES

OVER
6 MIL
THICK
2-PLY STRENGTH

THE PINNACLE OF PROTECTION, PERFORMANCE AND PRODUCTIVITY

Conceived and developed specifically for trades professionals who work with their hands for a living, PermaSafe Industrial Strength Gloves are in a class of their own.

While most “Industrial Grade” disposable gloves are simply thicker versions of their manufacturer’s standard gloves, PermaSafe Gloves are purpose-engineered to take on the toughest tasks in the toughest environments. Manufactured from the highest grade materials, to industry-leading standards, they incorporate unique design elements that ensure they’re as resilient as advertised, while adding comfort, performance, and productivity-enhancing features that no other glove can match.

VARIABLE-GAUGE DESIGN = INVARIABLY STRONGER GLOVES At over 6 mils thick, with palms and fingers measuring 9 mils, our Industrial Strength Gloves are minimally 2-3 X thicker than other gloves, and up to 4.5 X thicker where added strength is needed most: their palms and fingers. This variable-gauge construction results in a glove that is up to 4.5 X more puncture resistant, longer lasting, and delivers unmatched strength and barrier protection ... all without adding bulk, or sacrificing user mobility or feel.

UNEQUALLED GRIP, TRACTION AND CONTROL

Embossed with our unique Pyramidal Texturing, our Industrial Strength Gloves provide unprecedented grip. This ultra-deep texturing also produces a glove with up to 70% more surface area than other disposable gloves, further enhancing strength and flexibility, while producing a matrix of channels that quickly drain away liquids, keeping even the wettest, most slippery objects in your grasp, and under your control.

SUPERIOR FIT, FEEL & COMFORT = SUPERIOR JOB PERFORMANCE

Our gloves are not only more comfortable and fit better than other disposable gloves, but are also easier to put on and take off. And, because the reverse side of our grip-amplifying, Pyramidal Texturing promotes internal air circulation, they keep hands cooler and dryer, no matter how long they’re worn.

A HACK FOR ALL TRADES: Our 6+ mil Industrial Strength Gloves are designed to make every job easier. They provide the perfect blend of strength, comfort, performance, and protection from grease, grime, fuels, cleaners, chemicals and other contaminants, making them the perfect choice for heavy-duty tasks, as well as more casual household chores, and just about every other endeavor that calls for reliable hand or surface protection:

- Automotive
- Construction
- Industrial
- Agriculture
- Sanitation
- Painting
- Chemical
- Food Service
- Janitorial
- Police Use
- Metalwork
- Plumbing

General Description		Physical Properties		Part No.	Glove Size	Box Dims	Case Wgt
Material	100% Nitrile	Thickness	6 Mil+	PSBNGD6-S	Small	9.5" x 5" x 3.5"	16 Pounds
Grade	Industrial	Size Range	S-XXL	PSBNGD6-M	Medium	9.5" x 5" x 3.5"	19 Pounds
Grip Texture	Pyramidal	Tensile Strength	20 MPA (Min)	PSBNGD6-L	Large	9.5" x 5" x 3.5"	20 Pounds
Color	Black	Elongation	550% (Min)	PSBNGD6-XL	XL	9.5" x 5" x 3.5"	22 Pounds
Cuff Style	Beaded	AQL Level	2.5	PSBNGD6-XXL	XXL	9.5" x 5" x 3.5"	23 Pounds
Gloves are packaged 100 per Box and 10 boxes per Case				Case Dims	19" x 11" x 11" for all above Glove Sizes		

- Industrial Strength/Durability
- Non-Slip, Raised Texture
- Food Contact / Service Safe
- Latex, Vinyl & Powder Free
- Tear and Abrasion Resistant
- Chemical & Acid Resistant
- Touchscreen Compatible
- Hypoallergenic, Non-Irritant

MANUFACTURED IN ACCORDANCE WITH: EN 455 • ASTM D6124 • ASTM D6319 • AQL 1.5 • FDA 21 CFR 177.2600
