

48 port Cat6 Patch Panel 10G Support

MODEL NUMBER: AC-4UYM-MZJ9

DESCRIPTION

48-Port Cat6/Cat6A Patch Panel, engineered to deliver full 10-Gigabit Ethernet performance for demanding commercial, data-center, and enterprise environments. Designed to meet or exceed TIA/EIA Cat6A / 10G standards, this patch panel ensures stable, high-speed transmission with reduced crosstalk, superior grounding, and long-term reliability.

TECHNICAL INFORMATION

NAME: FIBASOURCE 48-PORT CAT6/CAT6A PATCH PANEL
TYPE: UTP PATCH PANEL, 19" RACK (2U)
COMPATIBILITY: CAT6A, CAT 6, CAT5E, CAT5 CABLING
SUPPORT: 10G (10 GIGABIT ETHERNET)
MOUNTING: WALL MOUNT/RACK MOUNT
PORTS: 48 RJ45 PORTS
PUNCH DOWN BLOCK: YES (FOR CABLE TERMINATION)

PACKAGE DIMENSIONS

LENGTH: 19 INCH
WIDTH: 3.5 INCH
HEIGHT: 6 INCH
WEIGHT: 1500 G

KEY FEATURES

- PROVIDES 48 RJ-45 ETHERNET PORTS, IDEAL FOR ENTERPRISE NETWORKS, DATA CENTERS, AND HIGH-CAPACITY RACK INSTALLATIONS.
- COMPATIBLE WITH MULTIPLE CABLE CATEGORIES INCLUDING CAT6, CAT5E, AND IN SOME CASES CAT6A, ENSURING FLEXIBLE DEPLOYMENT.
- EQUIPPED WITH 110-TYPE IDC BLOCKS (COMPATIBLE WITH 110 AND KRONE TOOLS) FOR SECURE COPPER CABLE TERMINATION.
- MANUFACTURED FROM DURABLE STEEL (POWDER-COATED OR COLD-ROLLED STEEL), OFFERING STRENGTH AND LONG-TERM RELIABILITY.
