P/N: USB32-5P2C3A-HUB

Upgrade your connectivity with the USB 3.2 5-Port Hub – a powerhouse solution for efficient data transfer, seamless charging, and comprehensive device integration.

- **High-Power USB-C PD Port:** Experience the prowess of a dedicated USB-C PD 100W port, capable of delivering rapid and reliable 100W power pass-through to keep your laptop charged at all times.
- **Swift USB-C 3.2 Port:** Seamlessly transfers data at remarkable speeds of up to 5 Gbps through the USB-C 3.2 port, ensuring your files move effortlessly between devices.
- **Triple USB-A 3.2 Ports:** Amplify your connectivity with three USB-A 3.2 ports, each offering blazing-fast data transfer speeds of up to 5 Gbps, enabling swift synchronization and sharing.
- **Seamless Simplicity:** Plug-and-play installation ensures an effortless setup, with no software required for immediate access to expanded connectivity options.
- **Streamlined Design:** Crafted for both elegance and functionality, the hub boasts a sleek, compact design that seamlessly complements your workspace.
- **Robust Compatibility:** Enjoy broad compatibility with various operating systems, including Windows 11/10/8, Mac OS 10.6 or newer, and Google Chrome OS, guaranteeing a versatile user experience.
- **USB OTG Support:** Enable USB On-The-Go (OTG) functionality on the latest Android devices, extending your hub's capabilities to the mobile realm.
