

TREBLAB

# 100W Charger

## User's Manual

Please read this manual  
before using the product

## **Thank you for choosing TREBLAB 100W Charger!**

This power adaptor provides stable 100W output with low heat generation and overvoltage protection.

The **TREBLAB 100W Charger** is the best compatible with the following **TREBLAB** products:

- **TREBLAB HD-360-Pro**
- **TREBLAB HD-Max**
- **TREBLAB HD-Energy-Pro**
- **TREBLAB HD77**
- **TREBLAB HD-Go**
- **TREBLAB Z7-Pro**
- **TREBLAB U5**
- **TREBLAB Z2**
- **TREBLAB C7-Pro**
- **TREBLAB C7**
- **TREBLAB X3-Pro**
- **TREBLAB X4**
- **TREBLAB X-Open**
- **TREBLAB X9-Pro**
- **TREBLAB X8**
- **TREBLAB XR700**
- **TREBLAB XR500**

## HOW TO OPERATE

- Connect the charging cable to the USB-C1/C2 (for 100W charging) or USB-C3/USB-A (for 30-33W charging) port on the **100W Charger** (depending on which cable you use).
- Connect the other side of the charging cable to the device to be charged.
- Connect the power adapter to the power source.
- The device will start charging.
- When the device is charged, disconnect it from the charging cable.
- Disconnect the USB cable from the power adapter.
- Disconnect the power adapter from the power source.

## CLEANING AND MAINTENANCE

- Disconnect the power adapter from the power source.
- Wipe the adapter using a dry, lint-free cloth.
- Always store the product in a dry place.

## SAFETY RULES

- Use the product **only** as instructed. Read **all** instructions before operating the product.
- Do not disassemble any of the components. Refer **all** services to qualified personnel **only**.
- Do not **place** or store the product in a humid area and do not expose it to water or rain.
- The device is not a toy. Keep it out of the reach of children and pets.
- Do not **leave** packaging material **lying** around carelessly. These may become dangerous **playing material** for children.
- Protect the product from extreme temperatures, direct sunlight, strong jolts, **flammable** gases, vapours and solvents.
- Also observe the safety and operating instructions of any other devices which are connected to the product.
- Disconnect the product from the power **outlet** and the USB device when it is not in use.
- Never connect or disconnect the product if your hands are wet.
- Make sure that your device meets the product's power requirements (see Specifications).

# **FCC STATEMENTS**

## **FCC Compliance Statement - Part 15**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

1. This device may not cause harmful interference, and
2. This device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance may cause interference and void the user's authority to operate the equipment.

## **FCC Interference Statement - Part 15**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular

installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **RF Exposure Information**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. In order to avoid the possibility of exceeding the FCC radio frequency exposure limits, human proximity to the antenna shall not be less than 20 cm during normal operation.
