

## 12 port Cat6 Patch Panel 10G Support

MODEL NUMBER: NT-RGRS-17EO

### DESCRIPTION

Network infrastructure with this high-performance 12-Port Cat6/Cat6A Patch Panel, engineered to deliver up to 10-Gigabit Ethernet speeds for reliable data transmission in home, office, and commercial environments. Designed for clean cable organisation, seamless connectivity, and long-lasting durability, it's the ideal solution for structured cabling installations. Built with 12 RJ-45 ports featuring gold-plated contacts, this panel ensures superior signal integrity and minimized insertion loss. It supports Cat5e, Cat6, and Cat6A Ethernet cabling, offering full compatibility for both existing networks and future-proof upgrades.

### TECHNICAL INFORMATION

**NAME:** FIBASOURCE 12-PORT CAT6/CAT6A PATCH PANEL  
**TYPE:** UTP PATCH PANEL, 10" RACK (1U)  
**COMPATIBILITY:** CAT6A, CAT 6, CAT5E, CAT5 CABLING  
**SUPPORT:** 10G (10 GIGABIT ETHERNET)  
**MOUNTING:** WALL MOUNT  
**PORTS:** 12 RJ45 PORTS  
**PUNCH DOWN BLOCK:** YES (FOR CABLE TERMINATION)

### PACKAGE DIMENSIONS

**LENGTH:** 10 INCH  
**WIDTH:** 1.75 INCH  
**HEIGHT:** 3.25 INCH  
**WEIGHT:** 680 G

### KEY FEATURES

- BUILT SPECIFICALLY FOR WALL-MOUNT INSTALLATIONS, IDEAL FOR SMALL NETWORK SPACES, HOME SETUPS, AND LOW-DENSITY TELECOM ROOMS.
- COMPATIBLE WITH MULTIPLE CABLE CATEGORIES INCLUDING CAT6, CAT5E, AND IN SOME CASES CAT6A, ENSURING FLEXIBLE DEPLOYMENT.
- EQUIPPED WITH 110-TYPE IDC BLOCKS (COMPATIBLE WITH 110 AND KRONE TOOLS) FOR SECURE COPPER CABLE TERMINATION.
- MANUFACTURED FROM DURABLE STEEL (POWDER-COATED OR COLD-ROLLED STEEL), OFFERING STRENGTH AND LONG-TERM RELIABILITY.
